

**Important Information Concerning Using Your Firstchek
Card to pay at the pump for gasoline**

Visa has announced that effective June 18, 2011, the maximum transaction amount limit used to qualify Visa consumer and commercial card fuel transactions for the CPS/Automated Fuel Dispense program will be updated from \$75.00 to \$125.00

What this means for you is when you use your Firstchek card to pay at the pump for gasoline the Visa system will now place a hold on your account for \$125 before the pump will allow you to start filling your tank. If you would like to avoid the hold being placed on your account you should complete the transaction as a debit and enter your PIN number or pay at the counter rather than at the pump

Please understand that this is a Visa rule and First National Bank has no choice about complying. We apologize for any inconvenience this change may cause and urge you to contact us with any questions you may have.
